

## ROPOX AQUA CARE BATHTUB

**Simply**  
MOVING & SLEEPING

### Safe, comfortable and accessible bathing.

The **ROPOX height adjustable AquaCare Bathtub** is designed to make bathing safer, easier and more dignified for individuals with reduced mobility.

### Effortless Electric Height Adjustment.

The smooth, electric height adjustment and user centred design, supports the comfort and safety of both the user and the caregiver. The bath can be raised or lowered to an ergonomic working height, reducing bending, reaching and manual handling strain.

Raised or lowered at the touch of a button of the easy to use hand control, the quick and simple adjustment makes the bathtub suitable for multi user households or shared care settings where different heights are required throughout the day.

### Designed for Safe, Low Effort Caregiving.

Height adjustment provides generous clearance underneath the bathtub, allowing full access for a mobile hoist. The open design enables caregivers to work comfortably from either side or end of the bath, giving flexibility in tight spaces and improving safety during care routines.

Watch our  
product video:

Available in three different lengths and suitable for children, young people and adults the bathtub can accommodate users weighing up to 220 kg.

The sleek, modern design blends seamlessly into any bathroom, whether in a school, care home, hospital or private residence.

Every ROPOX bathtub comes equipped with:

- Hand shower
- Mixer tap
- Complete plumbing kit

### Optional Accessories:

To create a fully tailored bathing solution, a range of accessories can be added:

- Shower bed cover
- Shower bed guards
- Brake wheels for increased mobility

5 and 10 year Simply service warranties are available - providing long term reassurance, support and peace of mind.
