

Flexible. Accessible. Designed for Every Activity.

The **ROPOX Vision Desk** is cleverly engineered to make everyday tasks easier, more comfortable and more accessible. Whether used in a school, home, therapy setting or office, it provides exceptional flexibility and ergonomic support, making it an ideal choice for children and adults with mobility, posture or functional needs.

With its clean, modern design and intuitive controls, the Vision Desk allows users to create a personalised work area supporting comfort, concentration and independence. The height, tilt angle and document position can all be adjusted with ease, helping to maintain a comfortable posture during reading, writing, studying, crafting or computer work.

Effortless Height & Tilt Adjustment.

Available with either manual or electric height adjustment range from 60–90 cm. Suitable for wheelchair users, standing work, and shared environments where multiple users require different desk heights.

The tabletop tilts between 0–71 degrees, allowing users to bring work closer, reduce strain and achieve the most comfortable viewing angle.

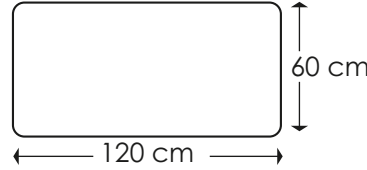

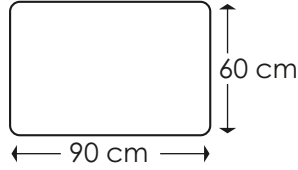

The tilt function can be set to the centre, left or right side of the desk, tailored to individual mobility needs and preferences.

Smart Features for Everyday Use

The Vision Desk can be enhanced with a range of optional clever accessories designed to support independence and ease of use:

MagRule – magnetic strip that securely holds paper and documents in place during writing, drawing or reading.

Arm supports – set up on one or both sides to provide stability and comfort.

Brake wheels – allow the desk to be moved easily between rooms or work areas.

Durable, Low-Glare Work Surface

The tabletop is finished in a matt laminate surface, reducing glare and reflections, supporting visual comfort for users with sensory or visual-processing needs. It is easy to clean, highly durable and supplied as standard in light grey, with a range of alternative colours.

A Desk That Supports Independence

The Vision Desk is suitable for users of all ages and abilities. Its wide adjustment range and ergonomic design make it ideal for learning and classroom activities, work, reading, writing, arts & crafts hobbies, computer work and therapy and rehabilitation tasks.

Designed to promote independence, comfort and participation the ROPOX Vision Desk is a practical and simple solution for anyone who needs a more adaptable working environment.

Simply supplied with a 3 year warranty on all parts.
